Our Special Story provides Applied Behaviour Analysis (ABA) therapy to children with autism, speech delay and special needs to improve behaviours, attention, speech and communication, school readiness and social skills.

Our team of passionate behaviour therapists understand that parents and teachers often find it challenging to find differentiated learning materials that cater specifically to children with speech or learning difficulties.

We are committed to making such resources easily accessible and hope that these specially crafted printables will make learning easier for your children or students with special needs.

Book a complimentary consultation at www.ourspecialstory.com.sg to find out how ABA therapy can benefit your child!

How to use

Here are some ideas on how to use this printable!

1) Tracing of letters

2) Spelling

- ***Recite each letter as it is being traced***

3) Receptive language:

- ***Where is the hand?***
- ***Point to the stomach***

4) Expressive language:

- ***Ask your child "What is this?" while pointing to the picture***
- ***Ask your child "What does this say?" while pointing at the words***
